## About Me

As a highly motivated Product Engineer, I am driven by a passion for creating exceptional user experiences and a deep curiosity for the potential of Artificial Intelligence. My experience spans a wide range of projects, from a successful e-commerce platform with over 100,000 downloads to an AI-powered SaaS platform for field agents. I am proficient in a variety of modern frameworks and have a strong foundation in mobile and web development. My commitment to excellence is demonstrated by my academic achievements and industry certifications. I am excited to contribute to a dynamic team where I can continue to grow my skills and work on cutting-edge, AI-focused projects.

## Skills
